

Plug-it Service plugs - SPML & SPXL

- High quality plug for temporary sealing hoses, joints, fittings and other holes, during maintenance, stock or transport.
- No more leaks (expensive and dirty) during maintenance of your machine.
- No more oils or fluids leaking in the environment..
- Very flexible and perfect fit, thanks to its patented design.
- Re-suable thanks to high grade rubber.
- Yellow colour for fast visual recognition and eliminating strongly the chance of lost or forgetting.
- Very easy and fast to apply and remove!
